## **A Weekend Workshop with David Cochrane**

*Come join us!!! David's weekend workshops are almost legendary. The wealth of information, inspiration, and magic that occur are David's weekend workshops are extraordinary.*

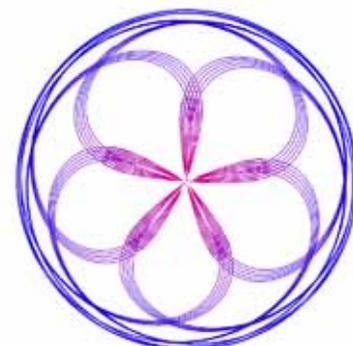

In this weekend workshop we are going to learn how we can find planetary patterns in the birth chart that give people special talents, motivations, or problems. Astrology is not limited to analyzing the personality and the psychology of a person. We can also see what a person's most important talents are, and we discover these talents in planetary patterns.

David's wealth of experience from having interviewed many thousands of people in the 1970's, his extraordinary wealth of knowledge in almost every area of astrology, and his ability to explain ideas in a way that everyone understands are just the beginning of what makes his weekend seminars so exciting. He then picks out a few charts from attendees and shows how the ideas work in their charts. Seeing the ideas applied live and how we get to the heart of issues for a person helps you to gain confidence that you can also apply these ideas in your astrological work.

In the past few years David's youtube tutorial videos are experiencing exponential growth in popularity. Perhaps you have watched some of these videos and you want to learn more. The videos are great but experiencing these ideas live and sharing them with others accelerates your learning to a new level.

Regardless of whether you are a beginner or a full-time very successful and well-known professional, you will benefit by attending. Some of the world's most respected astrologers attend David's workshops and find them very helpful. David has a rare combination of genius, humility, sincerity, and dedication

that makes his seminars a special event. And as David often likes to say, it is you, the attendees, that make the magic happen. He always gives the greatest credit to the attendees and it is indeed true that the attendees bring their special gifts, talents, experiences, good will, and love to a gathering where we all work together to improve our understanding and to become better able to serve others.
